Background Information

Every day, thousands of migrants risk their lives for the chance to reach safety in the United States.

Along this dangerous route, a safe haven has arisen: Abba House. Led by local Pastor and CWS partner, Ignacio Martinez, Abba House is a place where families and individuals on the move can access shelter, food and psychological, legal and medical support. It is also the only shelter in Mexico with a focus on welcoming migrants who have lost limbs due to accidents on the railroad during transit.

Above all, Abba House is a place of hope where the most vulnerable of our neighbors are given a place to rest and are reminded that they are not alone.

Award-winning documentarian Judy Jackson showcases the miraculous work of Pastor Ignacio through her new documentary, "Where Can We Live in Peace?" Through the lens of compassion, the film captures the harrowing lives of migrants and the power of welcome and community.
