

## Site Overview

Global Friends Coalition makes Grand Forks home for refugees. Global Friends is a nonprofit refugee resettlement agency. Services include: welcoming and initial resettlement supports; empowering newcomers to become self-sufficient through programs such as employment and ESL, and supporting integration efforts through immigration legal services, citizenship, and long-term engagement in the community. Some examples within the array of service areas include case management, employment services, educational and cultural orientation offerings, youth services, and more. Global Friends offers a variety of ways for individuals, families, businesses, and faith communities to welcome our newest neighbors.
